

PINK PEPPERCORN ESSENTIAL OIL

Suitable for beauty and personal care applications.

INCI: Schinus Molle (Pink Peppercorn) Oil

Extraction: Steam Distillation

Shelf Life: 2-3 Years

Origin: Peru

Background:

Our Pink Peppercorn Essential Oil is a clear oil that is steam distilled from peppercorns harvested from *Schinus molle*, an evergreen that is native to Peru. Pink peppercorns resemble black peppercorns in size, but they have a beautiful, pinkish-red hue and possess a wonderful aroma and flavor that is peppery yet delicately fruity in character.

Botanically, Black Pepper (*Piper nigrum*) and Pink Pepper (*Schinus molle*) are very different, but they both share some common applications and benefits. Our Pink Pepper Essential Oil possesses approximately 80% monoterpenes including α -Phellandrene, Myrcene, Limonene, β -Phellandrene and α -Pinene. In comparison, Black Pepper Essential Oil tends to only contain approximately 50-60% monoterpenes.

Uses:

Pink Peppercorn Essential Oil is a stimulating oil that offers numerous benefits when included in massage formulations. It also offers numerous benefits for supporting a healthy respiratory system.

Emotionally, Pink Peppercorn Essential Oil is an uplifting and energizing oil that is well suited for use in formulations intended to invigorate the mind, body and spirit.

Aromatically, Pink Peppercorn Essential Oil possesses a bright peppercorn aroma with a faintly fruity character. It is a middle note that can add a beautiful and distinctive characteristic to aromatic formulations. It acts as a wonderful bridge between top and base notes, and it blends wonderfully with most all other essential oils including but not limited to those within the floral, wood, citrus, spice, root, mint and resin families.
