

ROSEWOOD ESSENTIAL OIL

Also Known as Bois De Rose Essential Oil

Suitable for beauty and personal care applications.

INCI: Aniba Rosaeodora (Rosewood) Oil

Extraction Method: Steam Distillation

Shelf Life: 2 Years

Origin: Peru

Background:

Praan Naturals 100% pure, authentic Rosewood Essential Oil is steam distilled from the heartwood of rosewood trees that have been sustainably cultivated in Peru. It possesses an especially lovely, sweet, woody aroma with subtle floral characteristics.

Rosewood trees, *Aniba rosaeodora*, are tall, leafy evergreen trees that belong to the Lauraceae plant family. Native to the Amazon rainforest, these majestic trees are prized for their beautifully aromatic, dark rose-colored heartwood.

Ethical and Sustainable Sourcing:

Aniba rosaeodora is classified as an endangered species by The IUCN Red List of Threatened Species (International Union for Conservation of Nature and Natural Resources). For decades, the significant demand, over-exploitation and illegal extraction of rosewood trees lead to its endangerment.

Praan Naturals Rosewood Essential Oil is ethically and sustainably produced from rosewood trees that have been cultivated on plantations owned by local farmers in Peru. A CITES permit was acquired to legally import the essential oil.

Our manufacturing partner educates, supports and works closely with Peruvian farmers and their families. Collectively, they maintain a sustainable and balanced agroforestry system that includes preparing plantation lands to ensure ideal soil conditions, planting rosewood saplings, planting other botanicals that support the system, and caring for all of the trees and plants. To date, they have planted 40,000 rosewood saplings. Their initiative also helps to improve the livelihood of Amazonian inhabitants by providing full-time employment and by helping to stimulate the economy.

Recommended Usage Rate: 1-3%.

Standard Packaging: Available in aluminum canisters.

Uses:

Praan Naturals Rosewood Essential Oil is comprised primarily of linalool, a monoterpene that makes the oil extremely well suited for inclusion in formulations intended to support physical wellness and emotional balance.

Within skin care applications, Rosewood Essential Oil helps to support healthy skin. It is suitable for all skin types. For emotional applications, Rosewood Essential Oil is a balancing oil that can help to encourage a sense of calm and ease the feelings of stress. Rosewood Essential Oil is a revered oil that is also wonderful to include in blends intended for energetic and spiritual applications.

Rosewood Essential Oil has been traditionally used in a wide array of perfume and fragrances applications. It is a middle note that blends well with other wood essential oils and oils in the citrus, floral, wood, herbaceous, mint and spice families.
