REFINED CAMELINA OIL

Also known as Gold of Pleasure and False Flax

Suitable for cosmeceutical applications.

INCI: Camelina sativa (Camelina) Seed Oil

Extraction Method: Cold Pressed & Refined

Shelf Life: 2 Years

Country of Origin: USA

Background:

Camelina, also known as Gold of Pleasure and False Flax, belongs to the mustard family. Historical evidence exists that indicate that Camelina oil was pressed and used in Europe from as early as 600 BC. The oil possesses a light, golden color. Its stability, color, aroma and high percentage of essential fatty acids make it especially nutritive in skin and hair care formulations. Natural Sourcing provides the most superior refined camelina oil available. It is carefully produced and handled to maintain the purity, freshness and beneficial properties of this highly nutritive oil.

Oil Properties:

- Natural Antioxidant
- Skin Nourishing Properties
- Helps Regenerate Healthy Skin Cells
- Improves Skin Elasticity
- Rich in Essential Fatty Acids
- Mild Nutty Aroma
- Excellent Stability

Cosmeceutical Uses:

Camelina oil contains over 50% polyunsaturated fats. It is especially high in the essential fatty acids linoleic acid and alpha-linolenic acid, both of which cannot be manufactured by the body. Camelina oil contains over 10 times more of these acids than many other vegetable oils commonly available. It is nourishing to the skin and helps to heal and treat skin conditions such as eczema and psoriasis. The essential fatty acids contained in Camelina oil help to repair cells as well as improve the elasticity of skin. Include camelina oil in skin care formulations for maturing or sensitive skin. It provides a protective coating for hair follicles and is beneficial to the hair and scalp when added to hair care formulations. Its high content of natural tocopherols gives it a very stable shelf life against oxidation.

Standard Packaging:

Camelina seed oil is available in 25 kg (55 lbs) and 180 kg (396 lbs) quantities.
