MONOI DE TAHITI

Suitable for cosmeceutical applications.

INCI: Cocos Nucifera (Coconut) Oil (and) Gardenia Tahitensis

Method of Extraction: Cold Pressed, Maceration

Shelf Life: 1 - 2 Years

Origin: French Polynesia

Background:

Monoï de Tahiti is an exotic, delicately aromatic oil produced to exacting specifications in Polynesia. This precious oil is still produced in the same manner as it was over a thousand years ago.

Oil that bears the name *Monoï de Tahiti* must be manufactured according to a French governmental decree that explicitly describes the age-old tradition, specific ingredients and the careful process by which this nutritive oil must be made.

Monoï de Tahiti is created by macerating 10 intensely fragrant tiare flowers per litre of naturally refined coconut oil. The coconuts and tiare flowers used in *Monoï de Tahiti* must be grown within French Polynesia, and the maceration process must last at least 10 days. Tiare flowers are also known as *Tahitian gardenias* or *Tiare Tahiti*.

Our *Monoï de Tahiti* is 100% pure and authentic. No preservatives or other ingredients are added to this precious oil.

Natural Sourcing's Monoï de Tahiti carries the Appellation of Origin (AO) certificate that guarantees that the oil is produced under strictly controlled manufacturing methods, and it ensures the highest quality Monoï de Tahiti.

Cosmeceutical Uses:

Used traditionally for over a thousand years, *Monoï de Tahiti* is gaining industry-wide attention for its dramatic ability to nourish and moisturize the skin and restore health to damaged hair.

The unique properties and natural refinement process of the Tahitian coconut oil used in *Monoï de Tahiti* make it extraordinarily moisturizing and soothing for all skin types, most especially dry, cracked and aging skin. It is also a remarkable conditioner for the hair and scalp.

The fresh tiare blooms infused into *Monoï de Tahiti* lend an exquisite, delicate floral aroma to this nutritive oil. The blooms are rich in terpenic alcohol and esters that include methyl salicylate, a naturally occurring anti-inflammatory. *Monoï de Tahiti* has also been traditionally used as a natural aid for migraines, earaches, cuts, wounds and insect bites. Its anti-inflammatory properties and delicate floral aroma make it a soothing addition to sun care products. It is also a luxurious massage oil that helps ease muscular aches and pains.
