

NATURAL SOURCING™

Specialists in Cosmeceutical Ingredients

Exfoliants

Natural exfoliants help to gently loosen rough and dead skin. Each exfoliant varies in the degree of exfoliation that it offers. Our nut and seed meals, for instance, provide gentle exfoliation while also imparting the nutritive benefits of the natural oil content contained in the meal. Some exfoliants, such as our sugars and sea salts, provide more vigorous exfoliation and are ideal for scrubs and formulations intended to more thoroughly cleanse the skin.

Natural Sourcing supplies a vast range of superior quality natural exfoliants that are suitable for use within facial, hand and body scrubs, polishes, soaps and other skin care formulations.
