

# NATURAL SOURCING

Specialists in Cosmeceutical Ingredients

## *Jojoba Products*

Although jojoba is generally categorized with vegetable oils, jojoba is actually a liquid wax. Jojoba offers the traits of both an oil and a wax. Our line of clear and naturally golden jojoba is available both in organic and conventional types. Our jojoba line is highly penetrating and closely resembles the natural sebum of the skin. Jojoba is a good choice for inclusion within facial formulations intended for all skin types as it helps to remove excess oils and helps to balance the skin's natural oil production.

Jojoba esters are 100% natural, oil free esters from the jojoba plant. They deliver emolliency, lubrication and binding in lotions, creams and other products while maintaining thickness or stick structure. Jojoba meal can be added to your cosmetic and soap formulations to provide gentle, non-abrasive, natural exfoliation.

Our 100% natural pure jojoba wax beads provide gentle exfoliation without leaving microlacerations on delicate skin. These soft, tiny, colorful spherical beads are superior to ground nut shells and pumice powders when used in products for the face and body.

Jojoba Wax Beads are available in a large **array of colors:**

Baby Blue	Red
Blue	Sierra Blue
Brown	Tangerine
Green	White
Plum	Yellow

*Jojoba wax bead custom color matching is also available.*

Visit our Web site or call our Customer Care Department to request a price quote or a complimentary evaluation size for any of our superior quality jojoba products.
