Jojoba Wax Beads

INCI: Simmondsia Chinensis (Jojoba) Seed Oil

CAS No: 61789-91-1

EINECS No: 296-292-4

JCIC No: 520591

Jojoba Beads are made from 100% Pure Natural Jojoba wax esters and are ideal for shower gels, soaps and body scrubs. Also called jojoba spheres, jojoba prills or scrub beads, these free-flowing, spherical jojoba beads are superior to nut shell, pumice and polyethylene exfoliants because they do not leave micro-lacerations on the skin. Microscopic cuts can result in premature wrinkles and provide an entrance for bacteria into the skin's surface. Jojoba Beads do not irritate or burn the skin the way AHA/BHA or other acid products can.

In addition to over 15 stock colors, color matching is available. Jojoba Beads can be used in formulations from 1% to 15% depending on the degree of exfoliation and visual impact desired. Testing of the Jojoba Beads in the final product is recommended. Jojoba Beads are available in a variety of sizes to allow you to customize the degree of exfoliation.

Jojoba Beads are available in 5 kg (11 lbs), 10 kg (22 lbs), 50 kg (110 lbs) and 100 kg (220 lbs) quantities.
