

## Organic Spray Dried Honey Powder Typical Analysis

Our organic honey powder is made from pure Canadian honey, produced by spray drying liquid honey with maltodextrin. This free flowing powdered honey can be used in applications where soluble honey is desirable. The product delivers the same flavor, color and functional benefits of liquid honey. It can be used in dry technology applications and being soluble in water, can be used when process or product constraints prevent the use of liquid honey. The use of this product will provide a maximum honey flavor with no masking of flavor.

**Ingredients:** Honey, Maltodextrin, Silicon Dioxide (1% anti-caking agent)

**Storage:** Store at room temperature 25 C or less in a dry area in a tightly sealed container or bag. Shelf life unopened, at normal room temperature is up to 12 months.
