

## Ethically Sourced Ingredients

### ORGANIC FRACTIONATED COCONUT OIL

Also Available: Conventional Fractionated Coconut Oil and Caprylic Capric Triglycerides (MCT Oil)

Suitable for beauty and personal care applications.

**INCI:** Cocos Nucifera (Coconut) Oil

**Extraction:** Fractional Distillation of Virgin Coconut Oil

**Processing Method:** Food Grade Filtration

**Shelf Life:** 2 Years Minimum

**Origin:** Sri Lanka

#### Background:

Organic Fractionated Coconut Oil is a light, fluid and stable lipid. It consists primarily of Caprylic and Capric acids, two important medium-chain triglycerides that are naturally present in coconut oil and that are fluid at room temperature.

As with all of our organic ingredients, Praan Naturals Organic Fractionated Coconut Oil is certified organic by CCOF, a USDA-accredited organic certifying agency, and fully meets USDA organic regulations.

Organic Fractionated Coconut Oil is produced through the distillation and fractionation of virgin coconut oil to isolate the Caprylic and Capric acids as they are both fluid at room temperature. A small percentage of unsaturated fatty acids, including linoleic acid, an omega-6 essential fatty acid and oleic acid, an omega-9 fatty acid, may also be present in the oil.

Organic Fractionated Coconut Oil is sometimes mistakenly referred to as MCT Oil. While both Organic Fractionated Coconut Oil and MCT Oil share some similarities, it is important to recognize that MCT Oil is actually an ester, not an oil. Organic Fractionated Coconut Oil is produced differently and possesses a somewhat different usage profile than products typically known as MCT Oil.

#### Properties:

- Palm-Free
- Clear, Colorless to Yellow
- Virtually Odorless
- Light Texture
- Non-Staining
- Rapid Absorption
- See Spec Sheet for Fatty Acid Composition

#### Uses:

Organic Fractionated Coconut Oil is a highly versatile oil for use in skin care, cosmetics, and a wide range of other personal care and beauty applications. It is well suited for formulations where a light, stable, penetrating oil is desired. It remains fluid at room temperature, making it ideal for applications in which the solid consistency, texture, sheen and coconut aroma of Virgin Coconut Oil is not ideal. Organic Fractionated Coconut Oil can be incorporated into massage formulations or used on its own as a light, non-greasy massage oil. It is also an exceptional substitute for mineral oil. Within aromatherapy and fragancing applications, Organic Fractionated Coconut Oil serves as a virtually odorless carrier for essential oils and other aromatics.

#### Organic Fractionated Coconut Oil is Perfectly Suited for the Following Personal Care Applications:

- Skin Care
- Lip Care
- Hair Care
- Nail Care
- Cosmetics
- Aromatherapy
- Massage

**Recommended Usage:** 1-100%

**Standard Packaging:** Available in pails and drums.

### COCONUT LIPID COMPARISON CHART

	<b>Organic Virgin Coconut Oil</b>	<b>Organic Coconut CO2 Select Extract</b>	<b>Organic and Conventional Fractionated Coconut Oil</b>	<b>MCT Oil</b>	<b>RBD Coconut Oil</b>
<b>INCI:</b>	Cocos Nucifera (Coconut) Oil	Cocos Nucifera (Coconut) Pulp Extract	Cocos Nucifera (Coconut) Oil	Caprylic/Capric Triglycerides	Cocos Nucifera (Coconut) Oil
<b>Method of Production/Extraction:</b>	Centrifuge of Expeller Pressed Coconut Milk	CO2 Supercritical Extraction	Distillation and Fractionation of Virgin Coconut Oil	Esterification (of Glycerol, C8 and C10 Fatty Acids), Filtration and Deodorization	Expeller Pressed, Refined, Bleached and Deodorized
